PROXY STATEMENT
FOR THE ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON APRIL 26, 2001

General

The enclosed proxy is solicited on behalf of the Board of Directors of Active Power, Inc., a Delaware corporation, for use at the Annual Meeting of Stockholders to be held on April 26, 2001. The annual meeting will be held at 3:00 p.m. Central Daylight Time at Renaissance Austin Hotel, 9721 Arboretum Blvd, Austin, Texas 78759. These proxy solicitation materials were mailed on or about March 15, 2001, to all stockholders entitled to vote at our annual meeting.

Voting

The specific proposals to be considered and acted upon at our annual meeting are summarized in the accompanying notice and are described in more detail in this proxy statement. On March 1, 2001, the record date for determination of stockholders entitled to notice of and to vote at the annual meeting, we had outstanding 39,257,420 shares of our common stock and no shares of our preferred stock. Each stockholder is entitled to one vote for each share of common stock held by such stockholder on March 1, 2001. Stockholders may not cumulate votes in the election of directors.

All votes will be tabulated by the inspector of election appointed for the meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes. Abstentions and broker non-votes are counted as present for purposes of determining the presence or absence of a quorum for the transaction of business. Abstentions will be counted towards the tabulations of votes cast on proposals presented to the stockholders and will have the same effect as negative votes, whereas broker non-votes will not be counted for purposes of determining whether a proposal has been approved.

Proxies

If the enclosed form of proxy is properly signed and returned, the shares represented thereby will be voted at the annual meeting in accordance with the instructions specified thereon. If you sign and return your proxy without specifying how the shares represented thereby are to be voted, the proxy will be voted FOR the election of the director proposed by our board unless the authority to vote for the election of such director is withheld and, if no contrary instructions are given, the proxy will be voted FOR the approval of Proposal 2 described in the accompanying notice and proxy statement. You may revoke or change your Proxy at any time before the annual meeting by filing with our Corporate Secretary at our principal executive offices at 11525 Stonehollow Drive, Suite 110, Austin, Texas 78758, a notice of revocation or another signed proxy with a later date. You may also revoke your proxy by attending the annual meeting and voting in person.

Copies of solicitation materials will be furnished to brokerage houses, fiduciaries and custodians holding shares in their names that are beneficially owned by others so that they may forward this solicitation material to such beneficial owners. In addition, we may reimburse such persons for their costs in forwarding the solicitation materials to such beneficial owners. The original solicitation of proxies by mail may be supplemented by a solicitation by telephone, telegram or other means by our directors, officers or employees. No additional compensation will be paid to these individuals for any such services. We do not presently intend to solicit proxies other than by mail.

Board Committees and Meetings

In 2000, our board of directors held eleven (11) meetings and acted by unanimous written consent two (2) times including meetings held by the board of directors of our predecessor Texas company. The board of directors has an audit committee and a compensation committee. Each director attended or participated in 75% or more of the aggregate of (i) the total number of meetings of the board of directors and (ii) the total number of meetings held by all committees of the board on which such director served during fiscal 2000.

Audit Committee. The audit committee reports to the board of directors with regard to the selection of our independent auditors, the scope of our annual audits, fees to be paid to the auditors, the performance of our independent auditors, compliance with our accounting and financial policies, and management's procedures and policies relative to the adequacy of our internal accounting controls. The members of the audit committee are Messrs. Bond, Lindelow and Rock. The audit committee held two (2) meetings during fiscal 2000.

Our board adopted and approved an amended charter for the audit committee in March, 2001, a copy of which is attached hereto as Appendix A. The board has determined that all members of the audit committee are "independent" as that term is defined in Rule 4200 of the listing standards of the National Association of Securities Dealers.

Compensation Committee. The compensation committee reviews and makes recommendations to the board regarding our compensation policies and all forms of compensation to be provided to our directors, executive officers and certain other employees. In addition, the compensation committee reviews bonus and stock compensation arrangements for all of our other employees. The compensation committee also administers our stock option and stock purchase plans. The members of the compensation committee are Messrs. Anderson, Lindelow and Rock. The compensation committee held twelve (12) meetings during fiscal 2000.

Director Compensation and Indemnification Arrangements

Each of our non-employee directors receives a fee of \$5,000 per quarter for his service as a director. In addition, non-employee directors receive option grants at periodic intervals under the automatic option grant program of our 2000 Stock Incentive Plan. Non-employee and employee directors are also eligible to receive

option grants under the discretionary option grant program of the 2000 plan. Under the automatic option grant program, each individual who first becomes a non-employee board member at any time after our initial public offering receives an option grant to purchase 25,000 shares of common stock on the date such individual joins the board. In addition, on the date of each annual stockholders meeting held after our initial public offering, each non-employee board member who continues to serve as a non-employee board member is automatically granted an option to purchase 7,500 shares of common stock, provided such individual has served on the board for at least six months.

Our certificate of incorporation limits the liability of our directors to us or our stockholders for breaches of the directors' fiduciary duties to the fullest extent permitted by Delaware law. In addition, our certificate of incorporation and bylaws provide for mandatory indemnification of directors and officers to the fullest extent permitted by Delaware law. We also maintain directors' and officers' liability insurance and enter into indemnification agreements with all of our directors and executive officers.

Recommendation of the Board of Directors

The Board of Directors recommends that the stockholders vote FOR the election of both of the nominees listed above.

PROPOSAL TWO: RATIFICATION OF INDEPENDENT AUDITORS

Our board of directors appointed the firm of Ernst & Young LLP, independent auditors for the fiscal year ended December 31, 2000 and has appointed Ernst & Young LLP to serve in the same capacity for the fiscal year ending December 31, 2001. Fees for the last annual audit were \$54,000 and all other fees were \$270,000, including audit related services of \$260,000 and non-audit related services of \$10,000. Audit related services primarily related to the preparation of registration statements filed with the Securities and Exchange Commission. We did not engage Ernst & Young LLP to provide advice to Active Power regarding financial information systems design and implementation during fiscal 2000. The board is asking the stockholders to ratify this appointment. The affirmative vote of a majority of the shares represented and voting at the annual meeting is required to ratify the selection of Ernst & Young LLP.

In the event the stockholders fail to ratify the appointment, our board will reconsider its selection. Even if the selection is ratified, the board in its discretion may direct the appointment of a different independent auditing firm at any time during the year if the board believes that such a change would be in the best interests of the company and our stockholders.

A representative of Ernst & Young LLP is expected to be present at the annual meeting, will have the opportunity to make a statement if he or she desires to do so, and will be available to respond to appropriate questions.

Recommendation of the Board of Directors

Our board of directors recommends that the stockholders vote FOR the ratification of the selection of Ernst & Young LLP to serve as our independent auditors for the fiscal year ending December 31, 2001.

RELATED TRANSACTIONS

Registration rights. According to the terms of an investors' rights agreement, some of our stockholders, including our chief executive officer, Joseph F. Pinkerton, III, may require us to file a registration statement under the Securities Act of 1933 with respect to the resale of their shares. We are not required to effect more than two of these demand registrations. Holders of demand registration rights may require us to file an unlimited number of registration statements on Form S-3 with respect to their shares of common stock.

Additionally, some of our stockholders, including our chief executive officer, have piggyback registration rights with respect to future registration of our shares of common stock under the Securities Act. If we propose to register any shares of common stock under the Securities Act, the holders of shares having piggyback registration rights are entitled to receive notice of such registration and are entitled to include their shares in the registration.

At any time after we become eligible to file a registration statement on Form S-3 under the Securities Act, holders of demand registration rights may require us to file up to six registration statements on Form S-3 with respect to their shares of common stock, resulting in an aggregate offering of at least \$500,000 on each registration statement on Form S-3. We are not required to file more than one registration statement on Form S-3 in any one six-month period.

These registration rights are subject to conditions and limitations, including the right of the underwriters of an offering to limit the number of shares of common stock to be included in the registration. We are generally required to bear all of the expenses of all registrations under the investors' rights agreement, except underwriting discounts and commissions incurred by the selling stockholders. The investors' rights agreement also contains our commitment to indemnify the holders of registration rights for losses they incur in connection with registrations under the agreement. Registration of any of the shares of common stock held by security holders with registration rights would result in those shares becoming freely tradeable without restriction under the Securities Act.

AUDIT COMMITTEE REPORT

The Audit Committee reports as follows with respect to the audit of our fiscal 2000 audited financial statements:

Management is responsible for Active Power's internal controls and the financial reporting process. The independent auditors are responsible for performing an independent audit of Active Power's financial statements in accordance with auditing standards generally accepted in the United States and to issue a report thereon. The Committee's responsibility is to monitor and oversee these processes.

In this context, the Committee has met and held discussions with management and the independent auditors. Management represented to the Committee that Active Power's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States, and the Committee has reviewed and discussed the financial statements with management and the independent auditors. The Committee discussed with the independent auditors matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

Active Power's independent auditors also provided to the Committee the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Committee discussed with the independent auditors that firm's independence and considered the compatibility of non-audit services with the independent auditors' independence.

Based upon the Committee's discussion with management and the independent auditors and the Committee's review of the representation of management and the report of the independent auditors to the Committee, the Committee recommended that the board of directors include the audited financial statements in Active Power's Annual Report on Form 10-K for the year ended December 31, 2000 filed with the Securities and Exchange Commission.

- (1) The value realized of shares acquired on exercise was determined by subtracting the exercise price from the fair market value of the common stock on the exercise date multiplied by the number of shares acquired on exercise.
 - (2) Options granted under our 2000 Stock Incentive Plan and its predecessor plan are immediately exercisable. "Exercisable" refers to those options which were both exercisable and vested while "unexercisable" refers to those options which were unvested.
 - (3) Value is determined by subtracting the exercise price from the fair market value of our common stock at December 29, 2000 (\$21.9375 per share based upon the closing sale price of our common stock on the Nasdaq National Market on such date) and multiplying by the number of shares underlying the options.

Employment Contracts, Termination of Employment and Change in Control Arrangements

The Company has termination of employment and change in control arrangements in place with Joseph F. Pinkerton, III and David S. Gino. Mr. Pinkerton will receive six months of severance pay if he is terminated without cause, which would result in a severance payment of \$137,500 based on Mr. Pinkerton's current salary. Additionally, if after six months of an inability to perform his duties due to a permanent disability Mr. Pinkerton is terminated, he will receive three months of severance pay, which would result in a severance payment of \$68,750 based on Mr. Pinkerton's current salary. Upon a change in corporate control that results in a significant reduction in Mr. Gino's role and/or responsibility within 12 months of the change in corporate control, Mr. Gino will receive up to six months of severance pay, which would result in a severance payment of \$107,500 based on Mr. Gino's current salary. Additionally, 75% of his then unvested options will accelerate and vest immediately.

Our 2000 Stock Incentive Plan, which governs the options granted to the named executive officers, includes the following change in control provisions which may result in the accelerated vesting of outstanding option grants and stock issuances:

- . In the event that we are acquired by merger or asset sale or board-approved sale by the stockholders of more than 50% of our outstanding voting stock, each outstanding option under the discretionary option grant program which is not to be assumed by the successor corporation or otherwise continued in effect

will immediately become exercisable for all the option shares, and all outstanding unvested shares will immediately vest, except to the extent our repurchase rights with respect to those shares are to be assigned to the successor corporation or otherwise continued in effect.

- . The compensation committee will have complete discretion to grant one or more options that will become exercisable for all the option shares in the event those options are assumed in the acquisition and the optionee's service with us or the acquiring entity is subsequently involuntarily terminated. The vesting of any outstanding shares under our 2000 plan may be accelerated upon similar terms and conditions.
- . The compensation committee may grant options and structure repurchase rights so that the shares subject to those options or repurchase rights will immediately vest in connection with a hostile take-over effected through a successful tender offer for more than 50% of our outstanding voting stock or a change in the majority of our board through one or more contested elections. Such accelerated vesting may occur either at the time of such transaction or upon the subsequent termination of the optionee's services.
- . The options currently outstanding under our 1993 Stock Option/Stock Issuance Plan, which was succeeded by the 2000 plan, will immediately vest in the event we are acquired by merger or asset sale, unless those options are assumed by the acquiring entity or our repurchase rights with respect to any unvested shares subject to those options are assigned to such entity. If the options are so assumed by the acquiring entity and our repurchase rights are so assigned to such entity, then no accelerated vesting will occur at the time of the acquisition but the options will accelerate and vest in full upon an involuntary termination of the optionee's employment within 18 months following the acquisition.

Compensation Committee Interlocks and Insider Participation

None of our executive officers serves as a member of the board of directors or compensation committee of any entity that has one or more of its executive officers serving as a member of our board of directors or compensation committee. Our compensation committee currently consists of Messrs. Anderson, Lindelow and Rock, none of whom currently serves or has previously served as an officer or employee of our company.

Board Compensation Committee Report on Executive Compensation

It is the duty of the compensation committee to review and determine the salaries and bonuses of executive officers of Active Power, including the Chief Executive Officer, and to establish the general compensation policies for such individuals. The compensation committee also has the sole and exclusive authority to make discretionary option grants to the company's executive officers under our 2000 Stock Incentive Plan.

The compensation committee believes that the compensation programs for the company's executive officers should reflect Active Power's performance and the value created for Active Power's stockholders. In addition, the compensation programs should support the short-term and long-term strategic goals and values of the company and should reward individual contribution to Active Power's success. Active Power is engaged in a very competitive industry, and the company's success depends upon its ability to attract and retain qualified executives through the competitive compensation packages it offers to such individuals.

General Compensation Policy. The compensation committee's policy is to provide the company's executive officers with compensation opportunities which are based upon their personal performance, the financial performance of the company and their contribution to that performance and which are competitive enough to attract and retain highly skilled individuals. Each executive officer's compensation package is comprised of three elements: (i) base salary that is competitive with the market and reflects individual performance, (ii) annual variable performance awards payable in cash and tied to the company's achievement of annual financial, strategic and operational objectives in addition to individual contributions to these objectives and (iii) long-term stock-based incentive awards designed to strengthen the mutual interest of Active Power's executive officers and its stockholders.

Factors. The principal factors that were taken into account in establishing each executive officer's compensation package for fiscal 2000 are described below. However, the compensation committee may in its discretion apply entirely different factors, such as different measures of financial performance, for future fiscal years.

Base Salary. In setting base salaries, the compensation committee reviewed published compensation survey data for its industry. Specifically, the Committee considered an October 2000 report by the Watson Wyatt Worldwide consulting firm, entitled Executive Compensation Review and Stock Option Modeling Report. The base salary for each officer reflects the salary levels for comparable positions in the published surveys and the comparative group of companies, as well as the individual's personal performance and internal alignment considerations. The relative weight given to each factor varies with each individual in the sole discretion of the compensation committee. Each executive officer's base salary is adjusted each year on the basis of (i) the compensation committee's evaluation of the officer's personal performance for the year and (ii) the competitive marketplace for persons in comparable positions. Active Power's performance may also be a factor in determining the base salaries of executive officers.

Annual Incentives. In setting bonus amounts to executive officers, the compensation committee looks to external market data to assemble competitive variable compensation levels in competitive companies and markets. Based on the foregoing factors and the company's performance for fiscal 2000, bonuses were awarded to the executive officers named in the Summary Compensation Table in the indicated amounts.

Long-Term Incentives. Generally, stock option grants are made annually by the compensation committee to each of the company's executive officers. Each grant is designed to align the interests of the executive officer with those of the stockholders and provide each individual with a significant incentive to manage Active Power from the perspective of an owner with an equity stake in the business. Each grant allows the officer to acquire shares of the company's common stock at a fixed price per share (typically, the market price on the grant date) over a specified period of time (up to ten years). Each option becomes exercisable in a series of installments over a four-year period, contingent upon the officer's continued employment with Active Power. Accordingly,

the option will provide a return to the executive officer only if he or she remains employed by the company during the vesting period, and then only if the market price of the shares appreciates over the option term.

The size of the option grant to each executive officer is set by the compensation committee at a level that is intended to create a meaningful opportunity for stock ownership based upon the individual's current position with the company, the individual's personal performance in recent periods and his or her potential for future responsibility and promotion over the option term. The compensation committee also takes into account the number of unvested options held by the executive officer in order to maintain an appropriate level of equity incentive for that individual. The relevant weight given to each of these factors varies from individual to individual. The compensation committee has established certain guidelines with respect to the option grants made to the executive officers, but has the flexibility to make adjustments to those guidelines at its discretion.

CEO Compensation. In setting the total compensation payable to our Chief Executive Officer, Joseph F. Pinkerton III, in fiscal 2000, the compensation committee has taken into consideration Mr. Pinkerton's prior accomplishments and strategic leadership in our industry and also sought to make that compensation competitive with the compensation paid to the chief executive officers of comparable companies. Additionally, the compensation committee looked to Active Power' performance and stock price appreciation for a significant percentage of his total compensation.

Employee Stock Purchase Plan. We maintain an employee stock purchase plan that qualifies under Section 423 of the Internal Revenue Code and permits substantially all of our U.S. employees to purchase shares of our common stock. Participating employees may purchase our common stock at a purchase price equal to 85% of the lower of the fair market value of our common stock at the beginning of an offering period or on the exercise date. Employees may designate up to 15% of their base compensation for the purchase of our common stock under this plan. Active Power' executive officers are eligible to participate in this program, subject to any applicable tax laws.

Retirement Plans. We maintain a plan that complies with the provisions of Section 401(k) of the Internal Revenue Code. Substantially all U.S. employees are eligible to participate in this plan, and eligibility for participation commences upon hiring. We also maintain retirement plans for certain non-U.S. employees. Obligations under these plans are determined in accordance with local regulations and customs. Active Power' executive officers are eligible to participate in this program, subject to any applicable tax laws.

Compliance with Internal Revenue Code Section 162(m). Section 162(m) of the Internal Revenue Code disallows a tax deduction to publicly held companies for compensation paid to certain of their executive officers, to the extent that compensation exceeds \$1 million per covered officer in any fiscal year. The limitation applies only to compensation that is not considered to be performance-based. Active Power' 2000 Stock Incentive Plan has been structured so that any compensation deemed paid in connection with the exercise of option grants made under that plan with an exercise price equal to the fair market value of the option shares on the grant date will qualify as performance-based compensation which will not be subject to the \$1 million limitation. Cash and other non-performance based compensation paid to Active Power' executive officers for fiscal 2000 did not exceed the \$1 million limit per officer, and the compensation committee does not anticipate that the non-performance based compensation to be paid to the company's executive officers will exceed that limit. Because it is unlikely that the cash compensation payable to any of the company's executive officers in the foreseeable future will approach the \$1 million limit, the compensation committee has decided at this time not to take any action to limit or restructure the elements of cash compensation payable to the company's executive officers. The compensation committee will reconsider this decision should the individual cash compensation of any executive officer ever approach the \$1 million level.

It is the opinion of the compensation committee that the executive compensation policies and plans provide the necessary total remuneration program to properly align the company's performance and the interests of Active Power' stockholders through the use of competitive and equitable executive compensation in a balanced and reasonable manner, for both the short and long-term.
